

Make a dazzling dragonfly!

1. Decorate a pair of wings using sharpie pens.
2. Choose two pipe cleaners – thread two beads (otherwise known as dragonfly eyeballs) onto the middle of both pipe cleaners.
3. Behind the beads, bend the pipe cleaners round and twist together.
4. Slot your wings between the pipe cleaners and carry on twisting.
5. Bring your dragon fly to life! How do they move? Do they make a noise? What do they eat?

*Did you know –
dragonflies can fly
faster than a car!*
